Objective: A post as a Java Developer.

I am a certified Java professional with 8 years of solid knowledge on J2SE and J2EE, I have experience working with small and large teams as well as working alone. I really get a kick out of technology, so I am always up to date. I am very motivated when drawing solutions and resolving developer problems.

I am looking for new opportunities and challenges to increase knowledge and learn more in my area as well as to improve my English language skill.

Languages

- English (Intermediate to advanced);
- Portuguese (fluent).

Certifications

SCJP: Sun Certified Java Programmer 1.4 (2003 with 95%);

SCWCD: Sun Certified Web Component Developer 1.4 Exam (2004, with 70%).

Education

Systems Analysis graduation at **Universidade do Vale do Rio do Sinos (UNISINOS - Brazil)**

Technical Skills

Platforms: J2EE and J2SE;

Frameworks: Ajax, Ant, DWR, EJB3, Hibernate, IBatis, JasperReports, JfreeChart, Jmock, JQuery, Jsp/Servlets/JSTL, JSF, Junit, Prototype, SpringFramework, Struts, Swing, SWT, Velocity and Xstream;

Methodologies: RUP, Scrum and XP;

IDEs: Eclipse and Netbeans;

Operational Systems: HP-UX, Linux (RedHat, SuSe, Gentoo, Ubuntu) and Windows.

Application services: JBoss, OC4J and Tomcat;

Data bases: MySQL, MS-SQLServer and ORACLE;

Other languages: Groove, javascript, php, shellscript, python and ruby on rails;

UML tools: Enterprise Architect, Jude and Poseidon;

Version control: CVS, GIT and Subversion;

Work Experience

SICREDI – from September/2007 till May/2008
Java Developer.

Participation of the development of the new banking system of SICREDI (in Brazil) using technologies such as EJB, Webservices and Swing.

Activities:

- Implementation of service layers using EJB,
- Implementation of FLEX webservice call.

HP Brazil – November/2006 till July/2007

Java Designer.

Participation of the development of a project linked to HP-SIM (Web system to manage HP servers) using technologies such as Jboss, HP-UX, JSTL/JSP/Servlets.

Activities:

- Analyze, Investigation and designer of new features;
- Development of investigated features;
- Meetings and writing of documents in English language.

Expresso Mercúrio – January/2006 till November/2006

Java Architect and Systems Analyst.

Participation of the development of Logistics Management System (LMS) and in the integration project of LMS with legacy project using technologies such as Jboss, Swing, JSTL, Ajax, JasperReports, Velocity, SpringFramework, Hibernate and Webservices.

Activities:

- Management of a team of five;
- Take technical decisions;
- Use case specification;
- Development of integration project architecture;

E-core - Desenvolvimento de softwares – April/2004 till December/2005

Java Developer and Java Designer.

Participation of the development of Silos project of Bunge Alimentos (a Brazilian food company) using technologies such as Jboss, SWT, Hibernate and SpringFramework.

Activities:

- Design of part of systems using UML methodologies;
- Development of part of systems in J2SE and J2EE.

Cisa – Smart cards – January/2004 till April/2004
Java Architect.

I have developed all by myself a system capable of reading and writing smart cards, design card layout with appropriate printing, using technologies such as Swing, java2D, Sockets and OpenCard.

Activities:

- Define and develop the architecture;
- Documentation of the implemented architecture;
- Development of the systems using the previously developed architecture.

Compasso Web System – 2003 till 2004
Java Developer.

Participation as a developer in several projects for clients such as John Deere and Bunge Alimentos, using technologies like Tomcat and JSP/Servlets.

Meta – 2003
Java Developer.

Participation as a developer in several web projects, using technologies such as Tomcat and JSP/Servlets.

Apyon – 2002
Java Developer.

Participation in the development of **Apyon Studio**, which is software development environment that extends and consolidates the functionality of traditional CASE tools.

Micromega – 2000 till 2001
Visual Fox Pro Developer.

Participation in the development of Gescorp ERP.

Personal Projects

Finanças on Rails: A financial web-system controller for the Brazilian public, done by using Ruby on Rails. See more at <http://rubyforge.org/projects/financasonrails>.

Self-evaluation

- I consider myself a professional who likes to learn new technologies and I am also very creative;
- As a developer I regard myself as a perfectionist, capable of identifying the best technology in each situation (performance linked to productivity).
